- PROFESSIONAL  
EXPERIENCE
- Frontend Developer Intern | 2025

Frontend Architecture Team

  - Developed and optimized UI components to improve performance, accessibility, and responsiveness across devices.
  - Contributed to the development of a School Management System, focusing on front-end architecture and user interface consistency.
  - Built an AI assistant clone, applying modern React patterns and API integration techniques to enhance interactivity and performance.
- Operations Assistant — Akin Farms

Jun 2022 – Dec 2024

  - Oversaw daily farm operations, ensuring smooth workflow and timely task completion.
  - Coordinated with team members to manage schedules, logistics, and resource allocation.
  - Implemented record-keeping and reporting systems to monitor productivity and efficiency.

- EDUCATION
- Federal University of Technology, Minna

Bachelor of Engineering (B.Eng.) — Chemical Engineering

  - Final-year student with a strong foundation in analytical thinking, process design, and problem-solving.
  - Applying engineering principles and structured reasoning to software development and UI design.
- The Odin Project | 2023–2024

Frontend development

  - Completed an extensive open-source program covering HTML, CSS, JavaScript, Git, and React
  - Strengthened understanding of frontend architecture, state management, and component reusability.
